Quote to ponder...

If, throwing aside every preconceived idea, you could TRY and impress yourself with this profound truth that intellect is not all powerful by itself; that to become "a mover of mountains" it has first to receive life and light from its higher principle — Spirit, and then would fix your eyes upon everything occult spiritually trying to develop the faculty according to the rules, then you would soon read the mystery right. . . . "

A Master of the Wisdom  
(From The Mahatma Letters to A.P. Sinnett)
